## How to use Three Part Cards

Print pictures on card stock and laminate.

The control cards are the cards on the left of each page. The word is connected to the picture.

The matching cards are the cards on the right of each page. Cut along the dotted line to separate the word from the picture.

Now you are ready to use the cards:

1. NAME - Teach your child the **name** of each picture, Help him/her find the matching picture from the matching cards.
2. MATCH - Teach your child how to **match** the each word card to its matching control cards
3. SELECT - Pull away the control cards, leaving behind only the word cards. Ask your child to **select** word cards you call out.
4. READ - Put out only the picture cards (without words). Help your child read and put the corresponding word card under each picture.
